EXHIBITION PROGRAMME

HUNGEXPO

– there's no stopping us

HUNGEXPO Zrt. has completed one of the most successful years of its history to date. Our events catered to approximately a half million visitors, perhaps including you as well! This is both a joyous fact and a huge responsibility. It is often far easier to achieve than to maintain or surpass something. However, my colleagues and me can now have no other goal than to fulfill the ever greater expectations of the general public and the profession.

HUNGEXPO Zrt. has been a main fixture and leading player of the Central-Eastern European regional exhibition hosting market for nearly fifty years. We provide complex marketing services for exhibitors and events promoters alike. Our personalized, innovative solutions provide our partners with advantages which couldn't be gained in any other way. Thanks to decades' worth of efforts, we've managed to make Budapest the home and HUNGEXPO the host of the significant exhibitions of the region, including construction industry, landscaping, agricultural, food industry and car industry professional musters, leading angling-hunting and tourism fairs, displays for boating and motor enthusiasts as well as popular home making events for the general public. For 12 years, we've been working through our French parent company, putting its knowledge and experience accumulated in an international environment to good use.

Our firm's modern infrastructure and wide range of services offer solutions for exhibitions, B2B professional fairs and exclusive meetings or even hosting ten thousand-strong congresses and major corporate events. Thanks to our wide range of venues, flexible services and continuous innovations, we are capable of winning over a growing number of partners on the efficiency of our long-term cooperation.

Behind every successful executive is a great team. When asked what the secret of Hungexpo's success is, I usually mention two things: the high quality displays of our exhibitors and professional partners and my colleagues' dedicated work.

Hungary's leading bicycle fair is celebrating its 10th anniversary this year, yet is still a new feature in the Hungexpo Zrt. brochure. Previously, the Bike Expo was a guest event in our listings, yet our firm has been the host of the event since 2016. The success of the first year is clearly mirrored by the numbers, according to which 60% more visitors purchased tickets for the event than in the previous year.

In 2017, we will continue working towards our goals: the support of the development of cycling and bicycle sports, high quality bicycle entertainment shows for the general public, and a giant test track for interactive experiences.
